

*MAKING A WISH COME TRUE
CREATES INFINITE
POSSIBILITIES!*

On a daily basis our faculty and staff strive to bring out the best in each student. They try to identify creative ways to enrich students' learning and find new methods to increase students' interest, understanding and participation.

Imagine the infinite possibilities a 21st Century Classroom has to facilitate new discoveries, for teachers and students, and enhance learning with the integration of state-of-the-art tools, equipment and curriculum. While many upgrades have been taken care of through fundraising and grants the following wishes are waiting to be granted by generous supporters of St. Francis Xavier School and Catholic education:
